

INVOICE & PAYMENT OPTIONS

Everything built so far, and two straightforward ways to settle it.

First, the scope delivered to date, priced against what an outside agency would typically charge for the same work. Page two lays out two ways to pay it, so you can pick whichever suits the clinic's cash flow.

WHAT'S ON THIS INVOICE

ITEM	AGENCY RATE	THIS BUILD
Patient website and booking DETAILS → P.3 Three languages, installable on a phone, live slot booking, no double-bookings.	₹90,000	₹35,000
Admin dashboard DETAILS → P.4 Queue, schedule, patient history and revenue, updating live the moment anything changes.	₹70,000	₹20,000
WhatsApp automation DETAILS → P.5 Direct Meta Cloud API integration. Automatic confirmations, cancellations, reminders before every visit, one-tap broadcasts, and an in-chat bot for view, cancel, reschedule and pay.	₹90,000	₹15,000
Patient self-service Patients look up, cancel, reschedule, or pay by phone number, verified with a one-time code. Refunds happen automatically.	₹20,000	₹5,000
Security hardening Access control, login protection, a full audit pass, and the codebase moved to a private repository.	₹25,000	Complimentary

Website, admin and WhatsApp each get a full feature-by-feature breakdown on their own page, pages 3–5.

Typical agency rate ₹2,95,000

Discount applied – ₹2,20,000

Priced at **₹75,000**

Two ways to pay this on page 2 →

WHY THE RATE IS WHAT IT IS

Every item above is priced against what an outside agency would actually charge for it, then discounted well below that. The number is real, not symbolic. It's just intentionally under market.

TWO WAYS TO PAY

Pick whichever is easier on the clinic's cash flow.

Both options land at the same ₹75,000 across the first year. The only real difference is when the money moves, and whether ongoing hosting, WhatsApp costs, and small fixes are bundled in or handled as they come up.

OPTION A

Pay it in full

One payment settles the build. Nothing recurring afterward.

₹75,000 one time

- ✓ Settles everything on page 1, in full
- ✓ Small fixes and content updates stay free, same as always
- ✓ Site keeps running on its current hosting at no extra cost
- ✓ A new feature down the line gets scoped and quoted on its own
- ✓ No monthly commitment either way

OPTION B

Pay over time

Less upfront, with ongoing hosting and support built in.

₹45,000 now

plus ₹2,500 / month, ongoing

- ✓ Hosting, domain, and account upkeep, handled
- ✓ WhatsApp message costs from Meta, covered in the monthly fee
- ✓ Unlimited small fixes and content or schedule changes
- ✓ One small new feature included every quarter
- ✓ Same-day response if anything ever breaks

Over twelve months, Option B totals ₹45,000 + (₹2,500 × 12) = **₹75,000**, the same as Option A. Same value, different pacing. Pick whichever suits the clinic's cash flow this quarter.

WHAT "ONGOING" WOULD ACTUALLY COVER

Hosting, domain & WhatsApp usage

Runs on free-tier infrastructure today, so there's no real bill yet. If that ever changes, Option B's monthly fee already covers it.

Included in
Option B

A domain of the clinic's own

The site currently lives at rcorthocare.made-by-ac.com. Moving it to a dedicated address, for example ramachandraorthocare.in, is a one-time registration whenever you'd like it.

About ₹700–1,200
per year

Notes

No due date and no interest either way. On Option A, this invoice is paid whenever suits you. On Option B, the first ₹45,000 covers the build to date and the ₹2,500 monthly starts whenever you're ready. Switching from A to B later, or the other way round, is fine, just say so.

A note on why this isn't priced per booking

Some clinic software out there charges per appointment, close to ₹10 a booking with no cap. At this clinic's pace of around 1,200 bookings a month, that's roughly ₹12,000 a month, over ₹1,40,000 a year, and it keeps rising as the clinic grows. Others charge a flat subscription instead, anywhere from about ₹1,000 to ₹5,000 a month, regardless of how many patients come through. This was priced as neither. It was a job, charged once for the work it took, not a running cut of the clinic's success or a subscription that never ends. That's the whole reasoning behind the flat ₹75,000 above, whichever option you pick.

ITEM BREAKDOWN · PATIENT WEBSITE

Where the ₹90,000 agency rate actually comes from.

Six features, each priced against what an outside agency would charge for it on its own, then discounted to the ₹35,000 on page 1.

FEATURE BREAKDOWN

FEATURE	AGENCY RATE	THIS BUILD
Live slot booking, no double-bookings Availability updates the moment a slot is taken, so two patients can never land on the same appointment.	₹30,000	₹15,000
Booking flow, confirmation & token The form, validation, and the token number every patient gets to hold their place in the queue.	₹20,000	₹12,000
Three-language interface The whole site, not just labels, works fully in English, Telugu and Hindi.	₹15,000	₹5,000
Installable on any phone Add-to-home-screen support, so it opens and feels like an app without an app store.	₹12,000	₹3,000
Search & social previews Proper link previews and search listing, so the site looks right wherever it's shared.	₹8,000	Complimentary
Reviews wall Patient reviews on the homepage, laid out to read well on a phone too.	₹5,000	Complimentary
Adds up to ₹90,000 agency rate, matching page 1		₹35,000

ITEM BREAKDOWN · ADMIN DASHBOARD

Where the ₹70,000 agency rate actually comes from.

Five features, each priced against what an outside agency would charge for it on its own, then discounted to the ₹20,000 on page 1.

FEATURE BREAKDOWN

FEATURE	AGENCY RATE	THIS BUILD
Live queue The queue updates on its own the moment a patient books, arrives, or is marked done, no manual refresh.	₹18,000	₹9,000
Schedule & capacity management Open or close days, set windows and how many patients each one can hold.	₹15,000	₹6,000
Patient history & search Look up any patient's past visits by name or phone number in one place.	₹12,000	₹3,000
Revenue & payment reconciliation Tracks cash and Razorpay payments together, and flags what's still to be collected.	₹15,000	₹2,000
Self-healing live view Re-fetches and refocuses on its own if the tab sits idle, so the screen never goes stale on the front desk.	₹10,000	Complimentary
Adds up to ₹70,000 agency rate, matching page 1		₹20,000

ITEM BREAKDOWN · WHATSAPP AUTOMATION

Where the ₹90,000 agency rate actually comes from.

Six features, each priced against what an outside agency would charge for it on its own, then discounted to the ₹15,000 on page 1.

FEATURE BREAKDOWN

FEATURE	AGENCY RATE	THIS BUILD
Direct Meta Cloud API integration No monthly BSP platform fee, tools like WATI or AiSensy charge ₹8,000–₹1,00,000/month just for API access. Built straight against Meta, so the clinic only ever pays Meta's per-message rate.	₹15,000	₹15,000
Automatic confirmations, cancellations & receipts Every booking, cancellation and payment fires its own approved template on its own, no one has to remember to tell the patient.	₹10,000	Complimentary
Scheduled reminders before every visit A daily job messages tomorrow's patients automatically, with a one-tap button straight to their appointment.	₹12,000	Complimentary
One-tap broadcasts to the day's queue Running late or closing early, message the whole day's queue at once from the admin panel instead of calling each patient.	₹10,000	Complimentary
In-chat self-service: view, cancel, reschedule, pay Patients can do all four right inside WhatsApp, tapping buttons and lists instead of typing, live on both the website chat and WhatsApp itself.	₹25,000	Complimentary
Secure, multi-language template delivery Signed webhook verification so messages can't be spoofed, with template support in English, Telugu and Hindi.	₹10,000	Complimentary
Adds up to ₹90,000 agency rate, matching page 1		₹15,000
